## *INTRODUCTION*

The Union List of Social Science Periodicals currently received in the libraries in Delhi is the first in a series. Similar union lists for other cities which have a good number of libraries receiving a large number of social science periodicals are contemplated. These together will be the fore-runners of the Union Catalogue of Social Science Serials in important libraries in India, which will include the holdings of all kinds of serials in social sciences available in the country.

The union list of current social science periodicals is thought to be quite helpful in locating the availability of a recent number of a social science periodical. It may help the librarians and research scholars to obtain the required periodical on Inter-Library Loan or to visit the library if it is nearby. It may also help librarians in revising their subscription lists from time to time.

The present volume records the availability of 4,074 periodical titles known to be received in 107 libraries in Delhi (including 12 post-graduate college libraries) during 1970. Only those periodicals which have a definite frequency and which accord closely with the concept of current periodicals have been included. The daily newspaper, for instance, is received in almost all libraries. But it may not need to be specially located. It is therefore excluded.

Requests for the list of current periodicals were sent to 120 libraries. Of these 120, 107 libraries either furnished the lists or provided facilities to the staff of the Social Science Documentation Centre to compile the lists. The periodical titles listed in this volume include some which were not actually received on the date of the compilation of the lists but which were on subscription order by the libraries concerned and whose

receipts during 1970 were reasonably expected. A few libraries could furnish the lists of only subscribed periodicals and not of the periodicals received on the basis of exchange or gratis. To that extent, the present volume must be considered as incomplete.

The subject matter of social sciences is very wide and varied. However, periodicals on the following subjects have been included in this compilation:—

1. Anthropology
2. Commerce
3. Demography
4. Economics
5. Education
6. Geography
7. History
8. Journalism
9. Law
10. Management Studies
11. Political Science
12. Psychology
13. Sociology and Social Work
14. Statistics
15. Town and Country Planning

International Affairs and Public Administration are included in Political Science.

A large number of general periodicals which have obvious significance to the study of and research in social sciences are also included. Newspapers are not included as almost all libraries receive them. However, three dailies which are exclusively devoted to social science subjects are included, viz., (1) Economic Times, (2) Financial Express, and (3) Ekonomicheskaia Gazeta. But the following categories of periodicals are excluded:

(1) Literary and cultural periodicals
(2) Publicity journals
(3) Popular periodicals
(4) Irregular and annual periodicals
(5) Gazettes of Indian States

The lists supplied by the libraries form the principal basis of this compilation. In putting together these lists and provid-

ing location symbols for each title, the editorial work of the staff was mainly aimed at,

(a) an appropriate selection of the title for inclusion in the compilation;

(b) ensuring the accuracy of the title and the country of its origin;

(c) ensuring that the title is currently being published; and

(d) providing a unique symbol for each library.

In this process, the staff has had to check various reference tools, call on the librarians or telephone to them often for even small information. Several errors were discovered in the process of verification. For instance, it was noticed that more than a hundred periodicals reported as currently received have ceased publication and about six per cent of the reported titles are published under the changed titles. Special and time-consuming efforts have therefore been made to ensure as much accuracy and dependability as possible. Several reference works have been used for this purpose are listed separately at the end of this section. Even so, it may be advisable to contact the library in advance and verify the actual availability of a periodical title and its issue before sending a requisition for loan or paying a visit to the library. To facilitate such an advance contact, telephone numbers of all the participating libraries are provided. Local users of the Union List may find this helpful.

The Indian Council of Social Science Research and in particular the staff of the Social Science Documentation Centre wish to express their gratitude to the librarians and the staff of the cooperating libraries for the willingness with which they responded to our request for supplying the lists.

Special thanks are also due to Shri S. Parthasarathy, Scientist-in-charge, Indian National Scientific Documentation Centre, New Delhi and Shri Girja Kumar, Librarian, School of International Studies, Jawaharlal Nehru University, New Delhi,

for readily making available to our staff many of the reference tools which were required for verification of the periodical titles.

The entire work of preparing this volume has been done by Miss Nirmal Ruprail and under her guidance by Shri Manohar Lal and, for sometime, by Shri B. Narayan Rao. Almost the whole of the typing of the Press-copy has been done by Miss Leena Chowdhury

## *A NOTE FOR THE USE OF THE UNION LIST*

**Entry :**

1. Periodicals are entered under titles disregarding the initial articles. In a few cases of titles in a language other than English, the initial article is retained.

2. Entry is made under the latest known title of the periodical. Libraries which have reported the former title as currently received are assumed to have been receiving the current title. In such cases, the former title is also mentioned after the library symbols.

3. Bi-lingual and multi-lingual titles are entered as reported by the libraries and necessary cross reference is provided.

4. Title of a periodical is given in full. A stroke separates the alternate title, if any.

5. Subtitle is not mentioned except when necessary to make the title meaningful.

**Arrangement :**

6. Entries are arranged in alphabetical order (word by word) disregarding the articles, initial or elsewhere. In the case of titles in languages other than English, only the initial article is disregarded. Hyphenated words are regarded as one word and entries beginning with acronyms or abbreviations are arranged first in the respective alphabets.

**Place Name:**

7. Only the name of the country/countries of origin is given. In case of conflict, the place name preceeds the name of the country.

**Language :**

8 Efforts have been made to indicate the language of the periodical which is not in English language. All languages are indicated in the case of multilingual periodicals.

**A Sample Entry:**

9. Canadian Journal of Political Science/Revue Candienne de Science Politique
(Canada) E,F

CSL DUL IAM ICP IEG ILI IPA

**Explanation :**

10. Canadian Journal of Political Science is the title of the periodical and its alternate title is Revue Candienne de Science Politique. It is published in Canada and the text is in English and French. It is available in the libraries indicated by the symbols CSL.....IPA.

**Library Symbols :**

11. A three-letter symbol is constructed for each of the participating libraries. In each entry, the symbols for libraries receiving the periodical are arranged horizontally in an alphabetical order. A key to the symbols is given on page xxviii.

**Cross References :**

12. The location of a title in the Union List is further facilitated by adequate cross references as under:

| *From* | *To* |
|---|---|
| Alternate title | Main title |
| Former title | Current title |
| Translated title | Original title |
| Merged title | Entry title |

**Brief Analysis :**

1. *Subjects :* A table showing the number of periodicals received on each of the subjects included in the Union List is provided at page xvii. A periodical is counted under as many subjects as were considered relevant.
2. *Country of origin :* The total number of periodicals included in the Union List are published in 96 different countries. A table showing the first ten countries in the order of the number of periodicals originating in each is provided at page xviii.
3. A table showing the number of periodicals received in common by a number of libraries expressly indicating either the separate need of these periodicals in each library or perhaps an avoidable duplication is also provided at page xviii.
4. *Languages :* It has not been always possible to determine the language of the periodical or its multilingual character simply from the title of the periodical as reported by a library. Directories of periodicals which were available for reference helped but not in each case. Within these limits, of the 4074 periodicals included in the Union List, 522 periodicals, are in Languages other than English including bilingual and multilingual titles 232 periodicals which are bilingual and multilingual have English as one of the languages. 160 periodicals are in several Indian languages and of these 160, 110 are either exclusively in Hindi or have Hindi as one of the languages. All the rest are in English language.
